

Absolutely—here’s a **DALL-E 200-Prompt Pack** tailored for the **Pakistan Ministry of Information & Broadcasting (MoIB)**.

Each prompt is written to match **public-sector use cases** (PSAs, campaigns, briefings, social cards, reports, heritage, media literacy), with **neutral, non-political language, bilingual (Urdu/English) options**, and **brand-safe cues** (e.g., “Pakistan green & white,” “official emblem placeholder,” “generic state broadcaster icon”).

Tip: When you need the emblem or partner logos, write “[PLACEHOLDER — MoIB emblem / partner logo]” and replace later in design—this keeps generations consistent and avoids unintended logo hallucinations.

How to use these prompts (2 quick notes)

- For square social cards, keep as is. For banners or stories, append “—**orientation: landscape 1792×1024**” or “—**orientation: portrait 1024×1792**”.
 - For Urdu text, include the phrase **verbatim** (copy/paste). If text fidelity matters, add “**clear, legible typography, high contrast, avoid decorative fonts**”.
