

Student assignment designed specifically for learners using **Zapier's Free Plan**, which supports **two- step Zaps** (one trigger + one action) and allows **100 tasks per month**.¹

Zapier Assignment: Getting Started with Two- Step Automations (Free Plan)

Objective

Students will learn how to build simple, functional automations using Zapier's **two- step workflows**, which are fully supported on the **free tier**. By the end of this assignment, students should understand triggers, actions, task usage, and how automation reduces manual work.

Assignment Instructions

Method 1: Via Copilot

See: <https://zapier.com/blog/zapier-copilot-guide/>

Method 2 : Manual:

1. **Create a Zapier account** (free tier is fine).
 2. Review the concepts of **Trigger** and **Action**.
 3. Choose **any 5** automations from the list below.
 4. Build each Zap inside Zapier using only:
 - **One trigger**
 - **One action** (free plan limit)²
 5. Test each Zap to ensure it runs properly.
 6. Submit a short write- up (3–5 sentences per Zap) explaining:
 - What you automated
 - Why it is useful
 - Any issues you encountered
-

🔗 Simple Two-Step Automation Ideas (Compatible with Zapier Free Plan)

Each automation includes only **1 trigger + 1 action**, making them ideal for beginners and fully supported on the **free tier**, which allows two-step Zaps. ³

1. Save Email Attachments Automatically

- **Trigger:** New email with attachment in Gmail
- **Action:** Upload the attachment to Google Drive

2. Log New Form Responses in a Spreadsheet

- **Trigger:** New response in Google Forms
- **Action:** Add a row in Google Sheets

3. Post New Instagram Photos to Facebook Page

- **Trigger:** New Instagram photo
- **Action:** Create a post on your Facebook Page

4. Notify Yourself on Email When a New File Appears in Dropbox

- **Trigger:** New file in Dropbox folder
- **Action:** Send yourself an email notification

5. Back Up New OneDrive Files to Dropbox

- **Trigger:** New file in OneDrive
- **Action:** Save the file to Dropbox
